Volume 67 1976

Table of Contents

No. 1 pp. 1–314 issued on August 2, 1976
No. 2 pp. 315–620 issued on August 16, 1976

1 Continuous Measurement and Rapid Kinetics of ATP Synthesis in Rat Liver Mitochondria, Mitoplasts and Inner Membrane Vesicles Determined by Firefly-Luciferase Luminescence
J. J. Lemasters and C. R. Hackenbrock

11 Nuclear Poly(A) Polymerase from Rat Liver and a Hepatoma. Comparison of Properties, Molecular Weights and Amino Acid Compositions
K. M. Rose and S. T. Jacob

23 Geometry of the Protein S4 from *Escherichia coli* Ribosomes
H. H. Paradies and A. Franz

31 Purification, Subunit Structure and Partial Amino-Acid Sequence of Anthranilate-5-phosphoribosylpyrophosphate Phosphoribosyltransferase from the Enteric Bacterium *Serratia marcescens*
M. Largen, S. E. Mills, J. Rowe, and C. Yanofsky

37 The Role of *Escherichia coli dnaA* Gene and Its Integrative Suppression in M13 Coliphage DNA Synthesis
S. Mitra and D. R. Stallions

47 The Role of *Escherichia coli dnaG* Function in Coliphage M13 DNA Synthesis
S. Dasgupta and S. Mitra

53 The O9 Antigen of *Escherichia coli*. Structure of the Polysaccharide Chain
P. Prehm, B. Jann, and K. Jann

57 Phosphate Binding to Chromatophores of *Rhodospirillum rubrum*
W. Suter, H. U. Lutz, and R. Bachofen

61 Resolution and Partial Characterization of a Low-Molecular-Weight Product of Protein Synthesis in Isolated Rat-Liver Mitochondria
A.-C. Dianoux, M. Bof, R. Césarini, A. Reboul, and P. V. Vignais

67 Nicotinamide-Dependent One-Electron and Two-Electron (Flavin) Oxidoreduction: Thermodynamics, Kinetics, and Mechanism
G. Blankenhorn

81 The Role of Interchain Disulphide Bridges in the Conformational Stability of Human Immunoglobulin G1 Subclass. Hydrogen-Deuterium Exchange Studies
S. Y. Venyaminov, É. Rajnavölgyi, G. A. Medgyesi, J. Gergely, and P. Závodszky

87 A Comparison of Some Kinetic Properties of Soluble and Bound Lactate Dehydrogenase Isoenzymes at Different Temperatures
P. Nitisewojo and H. O. Hultin

95 Raffinose Metabolism in *Escherichia coli* K12. Purification and Properties of a New α-Galactosidase Specified by a Transmissible Plasmid
K. Schmid and R. Schmitt

105 Lipid Ordering and Enzymic Activities in Chromaffin Granule Membranes
C. L. Bashford, L. N. Johnson, G. K. Radda, and G. A. Ritchie

115 The Energetics of *Escherichia coli* during Aerobic Growth in Continuous Culture
I. S. Farmer and C. W. Jones

123 Quantitative Study of Secondary Structure of Histones H1, H2A, and H4 in Solution by Infrared Spectroscopy
B. V. Shestopalov and Y. N. Chirgadze

129 The Structure of Pentasaccharides and Hexasaccharides from Blood Group Substance H
N. K. Kochetkov, V. A. Derevitskaya, and N. P. Arbatsky

137 The Inhibition of Isocitrate Oxidation by Palmitoyl-L-carnitine and Palmitoyl-CoA in Rat Liver Mitochondria
E. Lenartowicz, C. Winter, W. Kunz, and A. B. Wojtczak

145 Effects of Antibodies to Various Molecular Forms of a Mutationally Altered *Escherichia coli* Alkaline Phosphatase on Its Activation by Zinc
J.-M. Pages, S. Varenne, and C. Lazdunski

155 Photolysis of Desmosine and Isodesmosine by Ultraviolet Light
R. Baurain, J.-F. Larochelle, and F. Lamy

165 Human-Polymorphonuclear-Leucocyte Neutral Protease and Its Inhibitor. Studies with Fluorescein-Labelled Polymeric Collagen Fibrils as a Substrate
F. S. Steven, D. W. Milsom, and J. A. A. Hunter

171 L-Phenylalanine: tRNA Ligase of *Escherichia coli* K 10. The Effect of O → S Substitution on Substrate and Ligand Binding Properties of ATP
J. Pimmer, E. Holler, and F. Eckstein

177 Effect of Inhibitors on the Substrate-Dependent Quenching of 9-Aminoacridine Fluorescence in Inside-Out Membrane Vesicles of *Escherichia coli*
A. P. Singh and P. D. Bragg

187 Photosynthetic Activities of Membrane Preparations of the Blue-Green Alga *Phormidium luridum*
A. Binder, E. Tel-Or, and M. Avron

197 Affinity Chromatography of Collagen Glycosyltransferases on Collagen Linked to Agarose
L. Risteli, R. Myllylä, and K. I. Kivirikko

203 Synthesis of the Brain-Specific S-100 Protein in a Cell-Free System from Wheat Embryo Programmed with Poly(A)-Containing RNA from Rabbit Brain
J. Mahony, I. Brown, G. Labourdette, and A. Marks

209 Structural Determination of Three Glycoasparagines Isolated from the Urine of a Patient with Aspartylglycosaminuria
A. Lundblad, P. K. Masson, N. E. Nordén, S. Svensson, P.-A. Öckerman, and J. Palo

215 Affinity Labelling of tRNA Nucleotidyltransferase from Baker's Yeast with $tRNA^{Phe}$ Modified on the 3'-Terminus
H. Sternbach, M. Sprinzl, J. B. Hobbs, and F. Cramer

223 8-Azidoadenine Analogs of NAD^+ and FAD. Synthesis and Coenzyme Properties with NAD^+-Dependent and FAD-Dependent Enzymes
R. Koberstein

231 Glutathione Reductase from Human Erythrocytes. Catalytic Properties and Aggregation
D. J. Worthington and M. A. Rosemeyer

239 Formation of Dolichol Monophosphate 2-Deoxy-D-glucose and Its Interference with the Glycosylation of Mannoproteins in Yeast
L. Lehle and R. T. Schwarz

247 An Efficient mRNA-Dependent Translation System from Reticulocyte Lysates
H. R. B. Pelham and R. J. Jackson

257 Polypeptide-Chain Elongation Promoted by Guanyl-5'-yl Imidodiphosphate
T. Girbes, D. Vazquez, and J. Modolell

267 Structure and Function of Rat-Liver Ribosomes. Modification by 2-Methoxy-5-nitrotropone Treatment
R. Reyes, D. Vazquez, and J. P. G. Ballesta

275 A Novel Pathway for the Synthesis of Solanidine in the Isolated Chloroplast from Greening Potatoes
N. K. Ramaswamy, A. G. Behere, and P. M. Nair

283 The Keratin Chains of Avian Scale Tissue. Sequence Heterogeneity and the Number of Scale Keratin Genes
I. D. Walker and J. Bridgen

295 Coenzyme Properties of NAD^+ Bound to Different Matrices through the Amino Group in the 6-Position
H.-L. Schmidt and G. Grenner

303 Pyridoxal 5′-Phosphate and the Regulation of Ornithine Decarboxylase Activity and Stability
J. L. Clark and J. L. Fuller

315 Structure-Activity Relationships in Acetylcholinesterase Reactions. Hydrolysis of Non-ionic Acetic Esters
J. Järv, T. Kesvatera, and A. Aaviksaar

323 Localization and Possible Role of an Adenosine Triphosphatase in *Chlorobium thiosulfatophilum*
D. D. Burns and M. Midgley

335 Role of Transfer Ribonucleic Acids in the Regulation of Several Biosyntheses in *Saccharomyces cerevisiae*
F. Messenguy and J. Delforge

341 Synthesis of a Class of DNA-Binding Proteins in Synchronized Untransformed and Virus-Transformed Cells
J. A. Melero, M. L. Salas, and J. Salas

349 Non-equivalence of Human Hemoglobin Chains in the Oxidation-Reduction and Heme-Transfer Reactions. A ^{13}C Nuclear-Magnetic-Resonance Study
R. Banerjee and J.-M. Lhoste

357 Reconstitution of Reduced Nicotinamide Adenine Dinucleotide Oxidase Activity with Menadione in Membrane Vesicles from the Menaquinone-Deficient *Bacillus subtilis AroD*. Relation between Electron Transfer and Active Transport
A. Bisschop and W. N. Konings

367 Use of a Sequence-Specific DNA-Binding Ligand to Probe the Environments of *Eco*RI Restriction Endonuclease Cleavage Sites
J. Kania and T. G. Fanning

373 Binding of Aminoacyl-tRNA to Reconstituted Subparticles of *Escherichia coli* Large Ribosomal Subunits
M. Kazemie

379 Structural Studies of Chicken Erythrocyte Histone H5
C. Crane-Robinson, S. E. Danby, E. M. Bradbury, A. Garel, A.-M. Kovacs, M. Champagne, and M. Daune

389 Calcium Regulation in Heart Cells. The Interaction of Mitochondrial and Sarcoplasmic Reticulum with Troponin-Bound Calcium
H. Affolter, M. Chiesi, R. Dabrowska, and E. Carafoli

397 The Structure of *Artemia salina* Haemoglobins. A Comparative Characterisation of Four Naupliar and Adult Haemoglobins
L. Moens and M. Kondo

403 Acetyl-CoA Hydrolase; Activity, Regulation and Physiological Significance of the Enzyme in Brown Adipose Tissue from Hamster
V. S. M. Bernson

411 Solubilization of the Chromatin-Bound Estrogen Receptor from Chicken Liver and Fractionation on Hydroxylapatite
M. Gschwendt

421 Functional Identity of the Monomeric and Multiple Forms of Elongation-Factor 1 from Krebs-II Mouse-Ascites-Tumor Cells
H. Grasmuk, R. D. Nolan, and J. Drews

433 Préparation et caractérisation physico-chimique partielle de la transferrine sérique ovine
Preparation and Partial Physico-Chemical Characterisation of Sheep-Serum Transferrin
G. Guérin, H. J. Vreeman et T. C. Nguyen

447 Equilibrium Studies on the Refolding and Reactivation of Rabbit-Muscle Aldolase after Acid Dissociation
M. Engelhard, R. Rudolph, and R. Jaenicke

455 Kinetics of Refolding and Reactivation of Rabbit-Muscle Aldolase after Acid Dissociation
R. Rudolph, M. Engelhard, and R. Jaenicke

463 Evidence for a Function of Core Protein in Complex III from Beef-Heart Mitochondria
P. Gellerfors, M. Lundén, and B. D. Nelson

469 Membrane-Bound F_1 ATPase from *Micrococcus* Sp. ATCC 398E. Purification and Characterization by Affinity Chromatography
F. W. Hulla, M. Höckel, S. Risi, and K. Dose

477 The Kinetics *in vivo* of the Synthesis of Albumin-Like Protein and Albumin in Rats
J. Urban, M. Chelladurai, A. Millership, and G. Schreiber

487 Phospholipid and Lipopolysaccharide in *Proteus mirabilis* and Its Stable Protoplast L-Form. Difference in Content and Fatty Acid Composition
J. Gmeiner and H. H. Martin

495 The Transfer of J Blood-Group Activity from J-Containing Bovine Serum to J-Negative Erythrocytes
F. Krötlinger, O. W. Thiele, and C. Ohl

503 The Amino-Acid Sequences of the α-Crystallin A Chains of Red Kangaroo and Virginia Opossum
W. W. de Jong and E. C. Terwindt

511 Hamster Brown-Adipose-Tissue Mitochondria. The Role of Fatty Acids in the Control of the Proton Conductance of the Inner Membrane
G. M. Heaton and D. G. Nicholls

519 Messenger RNA Translation in the Presence of Homologous and Heterologous tRNA
M.-A. le Meur, P. Gerlinger, and J.-P. Ebel

527 Light-Induced Enzyme Synthesis in Cell Suspension Cultures of *Petroselinum hortense*. Demonstration in a Heterologous Cell-Free System of Rapid Changes in the Rate of Phenylalanine Ammonia-Lyase Synthesis
J. Schröder, B. Betz, and K. Hahlbrock

543 Purification, Properties and Immunological Relationship of L(+)-Lactate Dehydrogenase from *Lactobacillus casei*
G. L. Gordon and H. W. Doelle

557 Possible Phospholipid Precursor for Phosphatidylserine in Rat Heart
Z. Kiss

563 Isolation and Characterization of Rat-Lens Messenger RNAs. Comparison of Lens Proteins, Synthesized in Lens Culture and in Homologous and Heterologous Cell-Free Systems
L. H. Cohen, D. P. E. M. Smits, and H. Bloemendal

573 Identification of a Membrane Protein Involved in Mitochondrial Phosphate Transport
P. Hadvary and B. Kadenbach

583 The Non-Covalent Binding of Small Molecules by Ligandin. Interactions with Steroids and Their Conjugates, Fatty Acids, Bromosulphophthalein, Carcinogens, Glutathione and Related Compounds
E. Tipping, B. Ketterer, L. Christodoulides, and G. Enderby

591 Isolation and Characterization of a Growth-Cycle-Reflecting, High-Molecular-Weight Protein Associated with *Escherichia coli* Ribosomes
A. R. Subramanian, C. Haase, and M. Giesen

603 Specificity and Properties of the Destabilization, Induced by Initiation Factor IF-3, of Ternary Complexes of the 30-S Ribosomal Subunit, Aminoacyl-tRNA and Polynucleotides
G. Risuleo, C. Gualerzi, and C. Pon

615 Light-Induced Increase in the Activity of Maize Plastid DNA-Dependent RNA Polymerase
K. Apel and L. Bogorad
